

CLIMATE AND OZONE PROTECTION ALLIANCE

1ST PLENARY MEETING AND INTRODUCTION OF THE STEERING COMMITTEE

The Climate and Ozone Protection Alliance (COPA) was **initiated in June 2021**. Since then, COPA has developed into an active alliance, acknowledged globally. Together with its members from both private and public sectors, first activities in partner countries have started, three thematic working groups (TWGs) are active and have regular exchanges on different topics related to policy, technology, and financing of **ODS and HFC banks management**.

We cordially invite all our members to participate in the sessions of both days. As a global alliance, we have tried to take into account the different time zones in our agenda and will offer different sessions over 2 days. Although very early for Latin America and late for Asia, we would be happy to get **all members together for the first session on the first day**.

Don't miss this opportunity to:

- Meet and greet the elected Steering Committee
- Network in small groups with other COPA members in two sessions
- Learn about latest technology trends, e.g., in refrigerant reclamation or destruction
- Get information about planned activities within the alliance and the TWGs
- Contribute your own ideas for thematic focus, pilot activities, study tours, project concepts etc.
